Energizing Development (EnDev)

Category: Finance
Sub-Category: Grant Funding

User: Private Sector

Donors: Australian Government Department of Foreign Affairs and Trade (DFAT), Department for International Development (DFID), Dutch Ministry of Foreign Affairs (DGIS), Federal Ministry for Economic Cooperation and Development (BMZ), Norwegian Ministry of Foreign Affairs, Swedish International Development Agency (Sida), Swiss Agency for Development Cooperation (SDC)
Donor Countries: Australia, Germany, Netherlands, Norway, Sweden, Switzerland, United Kingdom

Description:
Sustainable access to modern energy services that meet the needs of the poor. EnDev includes a Results-Based Financing mechanism providing incentive-based payments to stimulate off-grid energy access markets. This can include household solar. EnDev promotes sustainable access to modern energy services for households, social institutions and small to medium-sized enterprises in developing countries in Africa, Asia and Latin America.

Locations: Benin, Kenya, Rwanda, Tanzania
On- or Off-Grid: Off-Grid

Geography:
Kenya, Rwanda, Tanzania and Benin (RBF calls to date)

Eligibility:
An important precondition is that structures need to be in place to secure access to energy in the long run. In this way, the partnership program seizes present potential and fosters positive outlooks. However, EnDev only intervenes if the access would not occur otherwise within the next five years.

Supported Projects:
- can prove successful strategies (performance),
- meet criteria determined by a needs assessment, and;
- match focal areas defined by financiers.
